

crossvertise is a fast growing company which brings the advantages of E-Commerce to advertising industry. We've developed the first online marketplace where agencies and companies can browse our comprehensive catalogue on every advertising medium. We pride ourselves on professional expertise as well as our open feedback culture and team atmosphere. With passion and innovation we evolve our unique product to meet and exceed the expectations of our customers.

For an immediate start in our office in Munich, we are searching for a motivated and engaged

## Senior .NET Developer (m/f)

### Job Description:

- Helping to architect, build and extend the crossvertise online marketplace for advertising media
- Developing and implementing new, exiting features in order to simplify the planning and booking of advertising campaigns
- Leveraging the power of Microsoft's cloud computing platform Windows Azure for our application
- Mentoring and providing an example for junior and intermediate developers on the team

### What we offer:

- An international, dynamic and highly motivated team
- Based in the city center of Munich
- Access to the latest and best technologies and tools in the .NET world (we are Microsoft Gold Partner)
- Short decision paths
- Flexible working condition
- Much room for creativity and clever solutions
- And of course we regularly have some fun together besides the work – from game nights, over skiing to visiting the Oktoberfest

### Skills and Requirements:

- Positive attitude - get fun out of finding elegant solutions and team spirit
- Willingness to take responsibility for your work and deliver great results
- Understanding of HTML, CSS and JavaScript
- 4+ years experience with C# and the .NET Framework
- Solid knowledge of ASP.NET MVC
- Experience with SQL Databases and Entity Framework
- Experience with NoSQL Databases, such as MongoDB
- Experience with source control (we use Git)
- Good English skills required
